MILABS

Para-military MK-ULTRA
sub-project carried out by DARPA

MILABS (Military Operations) is a mind programming project involving so-called "alien abductions". MILAB operations are carried out to convince the targets of the operation (test subjects) that they have had an encounter with extraterrestrial beings, which is actually a staged ploy. DARPA is the organization that directs the MILAB projects. Research in this area started in 1924.
MILAB may include:

- Classic alien abduction types of experiences
- Occult ritual and cult abuse elements
- Dissociation
- PTSD (Post-traumatic stress disorder)
- DID (Dissociative identity disorder)
- Political manipulation
- Medical experimentation
- Interrogations
- Time manipulation
- Transportation to alternate locations such as underground military installations.

An example would be the numerous underground bases in and near Oregon, Nevada, New Mexico and elsewhere. MILAB typically takes place underground. Follows a list of some underground bases.

OREGON 1. Cave Junction, Oregon Function: Suspected underground UFO Base. Levels: at least one. Notes: Suspected location is in or near Hope Mountain.
2. Near Applegate Lake, Oregon, just over into California. There are multiple shafts and access areas to over 1500 ft depth. It was built using abandoned mines with over 36 known miles of tunnels and shafts.
3. Crater Lake, Oregon Tunnels: possible to Cave Junction.
4. Klamath Falls, Oregon
5. Wimer, Oregon (Ashland Mt. Area). Function: Underground Chemical Storage. Levels: at least one.

These are tunnels that run for miles, some with their own rail systems. Bases that stretch out in many directions. Secret technology that can only be tested far under the Earth's surface.

FOIA reports (reports obtained through the Freedom of Information Act) revealed - at least officially though that possibly goes even earlier - that since the 50s the US government had plans on constructing a series of underground bases throughout the US. Media reports showed the Reagan administration spent up to 8 billion dollars on such facilities. Toby Wightman, president of the American Underground Association who also works as an engineer, said that under these underground tunnels run shafts for hundreds of miles long with their own railroads and busy labs. But how many secrets are kept under these facilities? Whistleblowers are needed to expose these dark secrets, but will they be able to survive? Or will they be targeted by MILAB test subjects programmed to take them out?

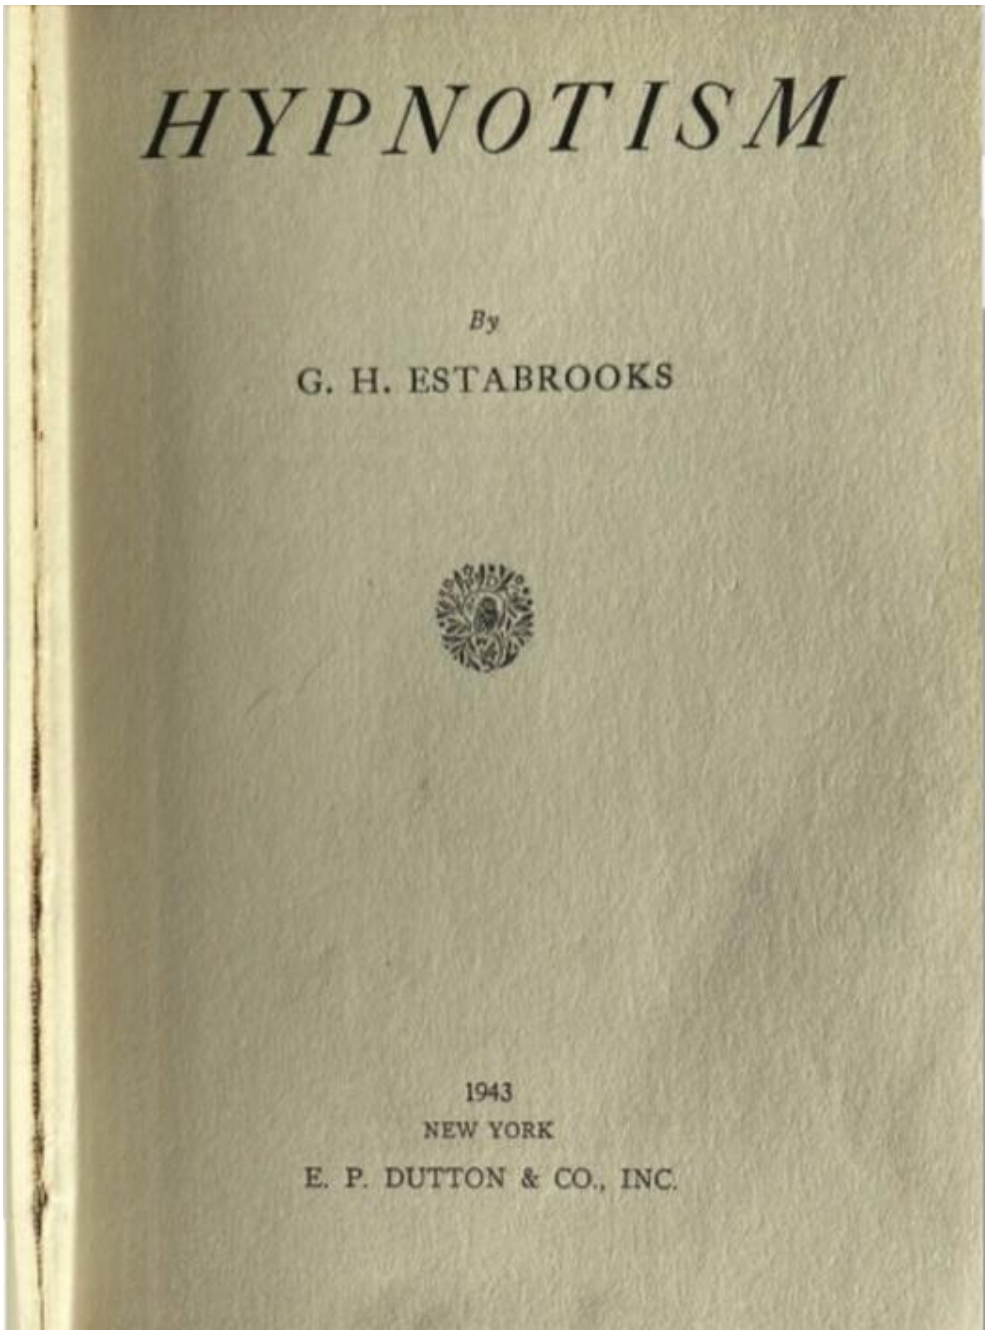
This is my only tattoo. I got it last year to "spoil myself" so I cannot be used in false-flag terror events. Many journalists at the Toronto Star have this image. Journalists will know if I go missing, a subsequent terror event with a destroyed body indicates a false-flag event.

Matthew Pauly, a non-consensual MK-ULTRA sleeper assassin test-subject, thought of an ingenious way to prevent his handlers from using him in any future false-flag terror events by making his one and only tattoo. If you want to learn about his story you can read his book: *The Murder of Time: Making and Unmasking a Sleeper*.

Continuing on the basis of MILABS. Alien programming involves staged abductions by people dressed up as aliens. For example, they will dress like Greys, Sassani, Pleiadians, Zeta Reticulans or Anakim amongst others. The person who is "abducted" is drugged prior to abduction. Bright lights may be used as well as medical instruments, and this may take place in a stark room. Essentially this is SRA (Satanic Ritual Abuse) but demons have been replaced with aliens, and the ritual space has been replaced with a sterile examination environment. Did you ever wonder why only people in the States are hearing about "alien abductions" but in Europe for example that is a totally unknown phenomenon. The - so called - aliens are interested only in the US citizens? Or... is it all just staged? Rhetorical question.

What we know to be factual is that MK-Ultra and many sub projects happened and trauma based mind control continues to happen. We know that children have been trauma programmed. We know the (US) government lies and experiments on civilians. These military and para-military teams are even training their Canadian equivalent teams, on how to torture without leaving scars on the body.



"The key to creating an effective spy or assassin rests in splitting a man's personality, or creating multi personality, with the aid of hypnotism… This is not science fiction. This has and is being done. I have done it." – Dr. G.H. Estabrooks, as quoted in a 1968 article in the Providence Evening Bulletin. Dr. G.H. Estabrooks wrote the book: *Spiritism and Hypnotism* in the early-mid 1950s.

The carefully crafted folklore around government activities has made it very difficult to get to the truth. The lore around these topics hides the truth beneath a mountain of lies and ends up working as its own cover or smokescreen. The culture around something they want hidden is created so that any truth discovered is dismissed outright, or, through affective conditioning, entwined with the lies.

Many serial killers and mass shooters we see in our recent history share the tell-tale signs of an MK-ultra as---sin. The American folklore, the myths, the smokescreens of the 'serial killer' hides a much bigger, fearsome and marauding monster.

One drawback with a number of the government's programs was that the subjects were adults, thus, their minds were more difficult to manipulate. As a result, this led to programming practices on infants, and children.
